## *From the Dean . . .*

I hope this issue of the OPUS arrives to find each of you totally caught up and well-rehearsed for the many musical demands of this season. There have been a few organists who have relocated in the past several months and I wish you well in your new positions. In addition to the Chapter meetings and programs, many churches and ensembles are planning musical events. Your participation and attendance at a colleague's program is always appreciated.

There are no Chapter meetings this year in March because we know most people are very busy with their own choirs, synagogues, programs and recitals. Several people have commented favorably about the quality and diversity of the programs we've had this year. I was especially appreciative of the program co-sponsored by our chapter and the St. Louis Chapter of National Association of Pastoral Musicians. I really appreciated the timely remarks made by Msgr. Telthorst.

The Executive Committee is encouraging all of our members to attend the 2013 AGO Region VI Convention in June in Springfield. In addition to taking advantage of the early registration discount, you can help by making a donation to the convention. This can be done in a number of ways: by taking out an advertisement in the convention book, by sponsoring an event, or simply by sending a donation. Information on advertisements and sponsorships are included in this issue and are also available on the convention website, [springfield2013.com](http://springfield2013.com).

Our Chapter will be hosting the AGO 2015 North Central Regional Convention. Your participation (as a volunteer, attendee, and a contributor) is essential. Andrew Peters is our convention chairperson; please respond affirmatively when he or his committee members ask you to get involved in the 2015 convention. Thanks to everyone who made it to the Town Hall meeting on February 23. If you couldn't make it, there are still plenty of opportunities to get involved in the 2015 convention. Please contact Andrew Peters ([music@secondchurch.net](mailto:music@secondchurch.net)) to make your availability known.

We are in the process of reconciling our membership roster with the records of the National Office. Once that is completed, I will be able to provide an updated accounting of our new members this year. Thanks to all who have become new members and to those who have invited others to join. I have been advised by the National organization that they are moving forward in their plan to have all membership renewals available online. They are still in the testing phase, so it may or may not be available this year. You can always renew online through the chapter, just send Brent Johnson an e-mail and request the online payment link. Brent's e-mail is: [brent@brentmjohnson.net](mailto:brent@brentmjohnson.net)

We have a member's recital in conjunction with our annual meeting in May. Trinity Presbyterian Church will be our host. If you are interested in playing on the program, please get your information to Stephen Eros ([subdean@agostlouis.org](mailto:subdean@agostlouis.org)) within the next several weeks.

If you plan to take one of the AGO certification exams, remember that our chapter will reimburse your registration fee IF you pass! As far as we know, we're the only chapter in the country offering this incentive to its members. Please consult the National AGO website: [agohq.org](http://agohq.org) for certification requirements. Also, contact Dawn Riske, CAGO ([driskehoy@juno.com](mailto:driskehoy@juno.com)) to work out the details. We have members who are willing and able to lend you some of the test preparation materials, copies of old tests to test yourself, and listen to you play if you need a friendly pair of ears! I promise you will have a wonderful sense of accomplishment when you are notified that you passed.

I look forward to seeing everyone at the April 22<sup>nd</sup> program at St. Mark's Episcopal Church. Dr. Trent Patterson and the Webster University Chamber Singers will present a program on Choral Techniques and Literature.

All the best,  
Bill Wade, CAGO, Dean

## NEWS YOU CAN USE . . .

### TRY OUT THESE RESOURCES!

Brent Johnson

This past Christmas I received a generous gift certificate for Shattinger Music. I didn't have any particular music needs, and since this was an unexpected gift, I decided to just go browse for anything that looked interesting. I was able to purchase a couple of useful books that might otherwise be out of my price range. With those in hand, I went searching for a final item that would use up the remainder of the value of the certificate. I came across a book of Debussy works transcribed for organ. This would be perfect; the person I received the gift from loves Debussy. I opened the book to peruse the table of contents, saw some titles I recognized, so I took my new-found treasures to the counter to check out.

A few days later I had some time to sit and go through the Debussy book. I have a recording of Keith Chapman playing some of these same works on the Wanamaker organ, so in my head I was hearing all of those wonderful symphonic sounds, even if my ears were hearing the disappointing sounds of my electronic practice organ. The print quality of the book was not fantastic, however, and looking back at the first of the pages, I realized this book, that was priced a bit dearly, was just a reprint of the original Durand edition. I pulled out my smartphone and opened the browser to [imslp.org](http://imslp.org) and there did a search for Debussy.

On the page containing Debussy's works, there it was, "12 Pièces pour grand orgue". Not only was it the book I had just purchased, but the exact same copy, all available in a free PDF file.

PDF sheet music is becoming more and more popular. Many publishers are starting to offer direct downloads of the music you buy. Some composers are even opting to skip the publishing industry altogether and are selling their works online, either through their own web sites, or other third-party services. However, the amount of free public-domain music available at the International Music Score Library Project, also known as the Petrucci Music Library, is a marvel in itself. Not only will you find classic editions, but you'll find newly re-published versions of particular works. It's not just organ music, either, but anything you can think of. The number of works is growing daily, and more and more music is falling into the public domain every day. It's always fun to browse through the stacks of a well-stocked music store, but it's far cheaper and quicker to find new and interesting things from the comfort of your own computer. The Debussy book has been returned to the music store, and I'll be more careful about how I spend my hard-earned gift certificates in the future.

More than that, the lectionary prepares us for Easter by offering a history of God's covenant and a portrait of salvation: from Noah, Abraham, and David to the prodigal son, Lazarus, and the woman at the well.
