# Dean's Corner: BURNELL HACKMAN

Dear fellow AGOers:

First, I want to thank Steven Ball for hosting a most enjoyable after-Christmas party! All in attendance had a great time.

At our March Executive Committee meeting we will decide the fate of our radio program the *King of Instruments* (KOI). The program cost the chapter about \$5,200 a year. When the program was established it was hoped that contributions from chapter members and members of the organ industry would help keep the cost for the chapter to a minimum. That has not happened.

The best way for chapter members to show support of the program and for its continuation is to donate to keep the *King of Instruments* (KOI) going. That is very easy to do by visiting: [www.agostlouis.org/koi](http://www.agostlouis.org/koi) or you prefer, you may mail a check payable to St. Louis AGO and mail to Mike Kaberline – PO Box 140067, St. Louis, MO 63114-0067. Please write KOI on the memo line. The cost of sponsoring a full episode of the program is \$150 and a half episode is just \$80. Contributions in ANY amount are most welcome.

Our National Convention is coming up this summer in Atlanta. We are so pleased to announce that chapter member Benton Blasingame will be presenting a recital at the convention at Lutheran church of the Redeemer on July 7 at 1:45pm and 3:45pm. CONGRATULATIONS BEN!!!

Bios for the 2020 Elections are included in this issue of the OPUS – Please take the time and VOTE! Your voice is important. Please vote on-line to save us postage on sending you a ballot.

As we enjoy a little respite between Christmas and Ash Wednesday, I hope you spend your time wisely and enjoy!

We'll see you at our March meeting!

Musically yours,

Burnell Hackman, Dean

### ***Nunc Dimittis***

It is with sadness that we announce that long time member and 2000 Avis Blewitt winner Dr. Marie J. Kremer died on Sunday, January 19, 2020. We thank God for a rich life, lived beautifully in the service of so many friends, students, colleagues and most especially, the Church. Marie passed away after a short illness and a long, wonderful life. She will be missed by so many. A more complete obituary will appear in the March OPUS.

**Stephen Tharp to perform in Concert:  
Friday, February 21 – 7:30pm**

American Organist Stephen Tharp will perform a concert on the Illinois College Fine Arts Series in Jacksonville, Illinois on Friday, February 21 at 7:30pm in Rammelkamp Chapel on the Illinois College campus. Tickets will be available at the door for \$15.00; students of all ages are admitted free of charge. Jacksonville is a two-hour drive north of St. Louis.

The three manual, mechanical action organ, with 29 stops and 39 ranks, was built by Holtkamp Organ Co. in 1979, to celebrate the 150<sup>th</sup> anniversary of the college.

The concert will include works by Bach, Vierne and a new *Berceuse* dedicated to the renowned American Organist Dr. Fred Swann, composed by Dallas-based composer George Baker.

Stephen Tharp, hailed as “authoritative, impassioned, supremely musical and technically impeccable, every bit the equal of any organist” and “the consummate creative artist”, is recognized as one of the great concert organists of our time. Having played more than 1600 concerts across over 53 tours worldwide, Tharp was given the 2011 International Performer of the Year Award by the New York City chapter of the American Guild of Organists, and in May 2015 he was given the Paul Creston Award, which recognizes artistic excellence by a significant figure in church music and the performing arts.

An important champion of new organ music, Mr. Tharp continues to commission and premiere numerous compositions for the instrument, by such composers as Jean Guillou, George Baker, David Briggs, Samuel Adler, Philip Moore, Anthony Newman and Morgan Simmons. An active chamber musician, Tharp has performed on organ, piano, and harpsichord with artists such as Thomas Hampson, Itzhak Perlman, the American Boychoir and the St. Thomas Choir. His 15 solo organ recordings can be found on the labels Acis Productions, JAV Recordings, Naxos, Organum and Ethereal.

## FOUNDATION

Early in 2018, the *Organ Media Foundation*, the parent organization of the Internet radio stations *Organlive*, *Positively Baroque*, and the *Organ Experience* branched out into making videos about the individual pipe organs. In each of these videos, St. Louis AGO member Brent Johnson stands at the console with usually the resident organist. Each of the stops of the organ is explained, demonstrated, and discussed. From there, the organist performs a work or two to show off the capabilities of the organ. Then the cameras go behind-the-scenes, to show the parts of the organ the public rarely sees. Viewers are taken inside the pipe chambers or into the console. Sometimes the cameras go inside the action of the organ. It's an opportunity for the general public to not only see and appreciate all of the complicated engineering that goes into an organ, but also for organists to compare and contrast both the sound and building styles of instruments from different builders and instruments.

As of January 2020 there are more than 80 videos on the Foundation's YouTube channel. There are some occasionally different videos, such as the daily updates from the Pipe Organ Encounters in St. Louis this past summer and Philadelphia in 2018. Vintage promotional films from Wicks and Reuter have been digitized and archived for public viewing on the channel.

Some notable St. Louis organs that can be seen on the channel include the Schoenstein at Ladue Chapel Presbyterian Church, the Casavant of First Presbyterian of Kirkwood, the new Parsons organ at Hoop Evangelical Lutheran, and the restored Pfeffer organ of the Shrine of St. Joseph. Some videos have even led to a renewed interest in neglected instruments. A video featuring Dr. Horst Buchholz demonstrating the Kilgen organ in the Chapel of the Sisters of St. Joseph of Carondelet has led the Sisters and their supporters to begin looking into having some work done to make the organ sound its best.

There are some other historic examples, such as Reuter's Opus 1 in Mattoon, ILL, and the 1770 David Tannenberg organ in Moselem Springs, PA, the oldest American-built pipe organ still playing. In 2019, the cameras were taken to Minneapolis to see the Schlicker organ of Mount Olive Lutheran Church, the organ that Paul Manz made famous in his recordings, and now played by David Cherwien. Organs that were heard in the Dallas OHS convention have been featured, and fans of the channel can look forward to previews of some of the organs used in the 2020 OHS convention in Columbus, Ohio.

To find these videos and subscribe to the *Organ Media* YouTube channel, just go to YouTube and type in ORGAN MEDIA FOUNDATION in the search bar.

## **AGO Member Jan Kraybill Nominated for Three Grammy Awards**

Jan Kraybill writes: I was absolutely thrilled that my most recent album, the second solo recording on the Kauffman Center's Julia Irene Kauffman Casavant organ, has been nominated for three GRAMMY awards, including Best Classical Instrumental Solo.

As far as I know, I am only the third organist – and the first female organist – to be nominated for a solo recording GRAMMY.
